Title	Minding the Source: Automatic Tagging of Reported Speech in Newspaper Articles
Publication Type	Conference Paper
Year of Publication	2008
Refereed Designation	Refereed
Authors	<a href="#">Krestel, R.</a> [5], <a href="#">S. Bergler</a> [6], and <a href="#">R. Witte</a> [7]
Conference Name	Proceedings of the Sixth International Language Resources and Evaluation Conference (LREC 2008)
Date Published	May 28–30
Publisher	European Language Resources Association (ELRA)
Conference Location	Marrakech, Morocco
Abstract	Reported speech in the form of direct and indirect reported speech is an important indicator of evidentiality in traditional newspaper texts, but also increasingly in the new media that rely heavily on citation and quotation of previous postings, as for instance in blogs or newsgroups. This paper details the basic processing steps for reported speech analysis and reports on performance of an implementation in form of a GATE resource.
