Title	{Generating Update Summaries for DUC 2007}
Publication Type	Conference Paper
Year of Publication	2007
Refereed Designation	Non-Refereed
Authors	Witte, R. [4], R. Krestel [5], and S. Bergler [6]
Conference Name	Proceedings of Document Understanding Workshop (DUC) at NAACL-HLT 2007
Date Published	April 26–27
Conference Location	Rochester, NY, USA
Abstract	Update summaries as defined for the new DUC 2007 task deliver focused information to a user who has already read a set of older documents covering the same topic. In this paper, we show how to generate this kind of summary from the same data structure—fuzzy coreference cluster graphs—as all other generic and focused multi-document summaries. Our system ERSS 2007 implementing this algorithm also participated in the DUC 2007 main task, without any changes from the 2006 version.
