Title	{ERSS 2005: Coreference-Based Summarization Reloaded}
Publication Type	Conference Paper
Year of Publication	2005
Refereed Designation	Non-Refereed
Authors	Witte, R. [4], R. Krestel [5], and S. Bergler [6]
Conference Name	Proceedings of Document Understanding Workshop (DUC)
Date Published	October 9–10
Conference Location	Vancouver, B.C., Canada
Abstract	<p>We present ERSS 2005, our entry to this year's DUC competition. With only slight modifications from last year's version to accommodate the more complex context information present in DUC 2005, we achieved a similar performance to last year's entry, ranking roughly in the upper third when examining the ROUGE-1 and Basic Element score.</p> <p>We also participated in the additional manual evaluation based on the new Pyramid method and performed further evaluations based on the Basic Elements method and the automatic generation of Pyramids. Interestingly, the ranking of our system differs greatly between the different measures; we attempt to analyse this effect based on correlations between the different results using the Spearman coefficient.</p>
