- DTMBIO 2011
- mycoMINE

I presented our paper Semantic Text Mining for Lignocellulose Research at DTMBIO 2011 last week. Now, our mycoMINE system is officially born !
The workshop was co-located with the ACM CIKM conference in Glasgow, Scotland.
Since 1992, the ACM Conference on Information and Knowledge Management has successfully brought together leading researchers and developers from the database, information retrieval, and knowledge management communities.

Glasgow - Banks of the River Clyde

The conference was a great opportunity to hear lots of interesting talks and to meet nice people. The Scottish [food, whisky, beer] are really good and even the weather was nice !

CIKM 2012 will take place in Maui and the submission deadline is June 15, 2012...

Semantics for the Masses
