Build error - Multipax

Submitted by [sandeep_muthangi](#) [1] on Thu, 2012-03-01 01:40

- [Semantic Software Tools and Resources](#) [2]

I have downloaded and unpacked the Multipax-1.3.tgz file. Now, I am unable to build and create the .jar file because of the following error

```
...\build.xml:90 : C:\usr\local\durmttools\GATE_SVN\gate\lib does not exist
```

Please help

[< Could not load MultiPaX in GATE](#) [3] [Using GATE to do evaluation process >](#) [4]

edit build.properties

Submitted by rene on Thu, 2012-03-01 19:54.

Hello,

You have to edit the build.properties file to change the path to your local installation of GATE:

```
1. gate.home=/usr/local/durmttools/GATE_SVN/gate
```
