Third IEEE International Conference on Semantic Computing (ICSC 2009)
Berkeley, CA, USA
September 14-16, 2009

http://www.icsi.berkeley.edu/icsc/

The field of Semantic Computing addresses the derivation and matching of the semantics of computational content to that of naturally expressed user intentions in order to retrieve, manage, manipulate or even create content, where "content" may be anything including video, audio, text, processes, services, hardware, networks, etc.

Deadline for full paper and demonstrations extended to May 10.
