The International Semantic Web Conference (ISWC) is the leading conference for research on Semantic Web topics. It is held annually and is the successor of the Semantic Web Working Symposium (SWWS).

The conference organisation body has established a SWSA Ten-Year Award which recognizes the most influential papers from the ISWC proceedings ten years prior. In 2013 a paper from the ISWC 2003 will be recognized for the 10 year award.

Previous ISWC conferences have been held in Sardinia, Italy in 2002, Florida, USA in 2003, Hiroshima, Japan in 2004, Galway, Ireland in 2005, Athens, USA in 2006, Busan, South Korea in 2007, Karlsruhe, Germany in 2008, Washington D.C., USA in 2009, Shanghai, China in 2010, Bonn, Germany in 2011 and Boston, USA in 2012. You can find more information about previous ISWC conferences at the SWSA web site.

A Semantic Web Conference Corpus has been established that provides access to information about all ISWC conferences in RDF. You can browse and search information on papers that were presented, people who attended, and other things that have to do with the main conferences and workshops.
