3rd Call for Papers

New Challenges for NLP Frameworks, a workshop at LREC 2010

22 May 2010, La Valleta, Malta

http://nlpframeworks2010.semanticsoftware.info

Natural language processing frameworks like GATE and UIMA have significantly changed the way NLP applications are designed, developed, and deployed. In this workshop, we bring together NLP framework designers and their users to showcase existing solutions and new challenges to be tackled in the next generation of NLP frameworks.
